SUMMARY

Software Engineering student with hands-on experience in React, Flutter, and database systems. Strong in building responsive web/mobile applications and applying object-oriented programming and problem-solving skills. Seeking internship opportunities to contribute to real-world projects.

EDUCATION

COMSATS University, Lahore

Bachelor of Science in Software Engineering

Sep 2023 – May 2027

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, SQL

Web: HTML, CSS, React.js

Mobile: Flutter

Databases: MySQL, SQL Server, MongoDB

Tools: Firebase, Git, Figma

EXPERIENCE

Freelance Web Developer

- Built responsive websites using HTML, CSS, and JavaScript for social/welfare campaigns
- Improved user experience by applying modern UI/UX design principles

Java Tutor (Preply)

- Taught OOP, core Java concepts, and problem-solving techniques
- Guided students through practical coding exercises and structured lessons

PROJECTS

React Birthday Messages Web App

- Engineered a real-time, event-driven web application using React.js and Firebase with live data synchronization
- Architected modular, reusable components to enhance scalability, maintainability, and performance

Professional Learning Video Mobile App (Flutter)

- Developed a cross-platform mobile application using Flutter with dynamic content delivery and user engagement tracking
- Designed and implemented an intuitive, responsive UI to optimize navigation and user experience

Airport Management System

- Built database system using MySQL and SQL Server
- Implemented triggers, procedures, and views for automation and integrity
